LEATHER AND FABRICS

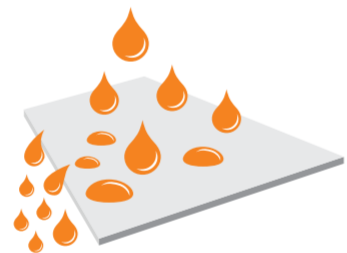

ADVANCED[®] FABRICS

Is the latest and most sophisticated brand created by Elastron.

These articles are technologically designed to satisfy the most demanding markets, such as Contract, Interior Design and Industry.

This selection is exclusively related to articles with Special Treatment or Exceptional Characteristics that give and added value and differentiate from other upholstery products.

HYDRO CARE[®] Liquid Repellent

Hydro Care - Liquid Repellent - is a treatment that provides a protection on the fabric, avoiding the penetration of liquids, such as water, coffee, juice, wine, sauce, mud, etc., keeping the fabric dry and clean.

Liquid spills can easily be wiped away with a clean cloth, and dry soil can be brushed off easily, thus preventing the appearance of undesirable stains.

With this treatment, the fabric remains breathable and maintains its original look.

- With a clean cloth, gently remove the liquid spilled.
- In case of dry soil, use a vacuum cleaner.

Easy to Clean[®] Only With Water

Easy to Clean - Only With Water - this treatment allows to clean stains and spots using only water.

The **Easy to Clean** treatment - **Only With Water** – allows you to remove any type of common household stain, such as coffee, ink, chocolate, wine, etc... very easily.

This treatment has the ability of preventing the stain from seeping into the fabric thus preserving your sofa.

- Promptly remove any excess liquid or residue with a clean cloth.

- Use a wet cloth with 5% neutral soap, press gently and rub in circular movements.
- We recommend using a 100% cotton cloth and a brush if necessary.
